

CCH TAGETIK ANALYTIC INFORMATION HUB

HARNESS THE DATA. GAIN THE INSIGHTS. DRIVE THE BUSINESS.

The Analytic Information Hub empowers finance and business users to harness massive amounts of granular data, uncover the hidden value and gain business insights for more informed and confident decision-making. Extending the reach of our CPM processes down to a more detailed level, with in-depth modelling capabilities and high performance you can quickly perform integrated business planning, detailed operational planning and profitability analysis with the same level of data governance, transparency and auditability as traditional performance management. The powerful data management engine easily collects, transforms and validates data, to create a data ecosystem for the Office of Finance. The Analytic Information Hub provides the foundation for embracing AI and Machine Learning innovations as your digital transformation journey continues.

CCH Tagetik Analytic Information Hub

Gain Key Insights

Perform in-depth modeling & analytics on more granular data, transforming data into information to gain key insights. Extending the reach of CPM processes to detailed level provides a more accurate view of the results. In-depth planning, profitability analysis, or any other analytics all can be easily done.

Flexible Data Model

Open data model with no dimensional limitations and is designed to handle large datasets with powerful mapping, data validation capabilities, and multidimensional formulas. Gather, transform, enrich and validate data from disparate systems.

Easy to Configure

Full custom data modeling with GUI interface for configuration vs. programming. With built-in operations and validations, you can easily define SQL statements, and functions and procedures that can be reused across the application.

Implement Quickly

Controlled and risk mitigation environment with enterprise security, workflow/dataflow, and audit trail. Software is quick to implement, non-disruptive to your current architecture and has a powerful ETL that easily connects to many source systems.

Full Information View

The CCH Analytic Information Hub can be used stand-alone or integrated with CPM to provide the complete 360° view of your data. Reduces siloed systems and increased efficiency and accuracy of data. Provides the same central data repository for Finance & Operations to access, which increases alignment and transparency.

Platform for the Future

The platform for all your data: from corporate performance management summary level data to complex regulatory contract level data to granular data for analytics. With a performant engine that quickly processes high volume data, you have the platform for today and the future needs for AI, machine learning and predictive analytics.

"Today's finance teams need to expand beyond CPM to perform in-depth planning, profitability analysis and analytics to ensure key insights for business decisions are backed by real-time numbers and solid analysis. As the finance role transforms, CFO's are looking for modern technology to meet their needs for today and in the future."

Marco Pierallini, EVP Product, CCH Tagetik

Key Benefits

- ✓ 360° view of your data
- ✓ Gain insights for better decisions
- ✓ Highly performant on large datasets
- ✓ Align Finance & Operations
- ✓ Modernize Finance Technology
- ✓ Controlled & Secure
- ✓ Lower Risk & TCO

Why CCH Tagetik?

Finance Owned: Purpose built to be maintained by Finance, empowering finance and reducing dependency on IT.

Unified CPM Solution: Consolidation, Planning and Reporting in one solution provide confidence in your data.

Reliability: Our implementation team and partners consistently deliver.

Cloud without Compromise: On premise. On cloud. One solution. The choice is yours!

Why Today's Businesses Need the Analytic Information Hub

Insights and Strategy are Key: CFOs are now expected to be more strategic, providing insights not just numbers, increasing the need for analytics and modeling.

Expanding reporting demands: Financial, non-financial/pre-financial, post-financial, regulatory reporting requires granular data from many sources to produce results.

Preparing for Future Technologies: Artificial Intelligence, Machine Learning, Prescriptive Analytics require tools to handle high volume data.

Greater depth for Planning & Profitability Analysis: To provide greater confidence and transparency, end-users need to perform planning and profitability analysis at a lower level.

CCH Tagetik Analytic Information Hub handles modeling and analytics on granular data putting Finance in control of their own data destiny!

Key Capabilities

Collect & Store Data: access granular data from diverse sources; adapt data structure to accommodate financial and operational needs; establish data hub

Validate & Control: manage entire data lifecycle from source to disclosure; be accountable for the data flow, validation, accuracy, access, and auditability

Transform & Inform: apply financial intelligence, rules, and knowledge; perform analytics, modeling & planning at the granular level; transform granular data into actionable information; generate multiple, auditable reports and outputs
