CCH TAGETIK iXBRL (powered by CoreFiling)

Fast & Accurate Filing

CCH Tagetik's integrated solution, provides efficiency and reduces errors and provides confidence in producing and validating the tagging from your annual report in MS Word or Excel.

Meet New Regulations

Easily meet European Securities and Markets Authority (ESMA) new standard Inline XBRL (iXBRL) for European Single Electronic Format (ESEF) required by January 1 2020.

Easily Tag Reports & Extend your Taxonomy

Using machine learning tagging, you can automatically tag tables, get help tagging in line text, and extend the taxonomy to meet your requirements.

Use the Right Taxonomy

Always be sure you are using the correct taxonomy. CoreFiling will provide the updated taxonomy if ESMA makes any changes to ensure you make the correct filing.

Cloud Solution

With the trusted SaaS solution, you can quickly and securely use the solution, without burdening IT with additional work.

Trusted Solution

CoreFiling is XBRL certified by XBRL International, providing confidence that your report tagging and the iXBRL file created will be correct the first time!

“At CCH Tagetik, we are continually innovating to provide our customers more value. With CoreFiling, we found the perfect iXBRL tool to complement our CCH Tagetik Collaborative Office solution and provide an efficient solution for our customers.”

New Regulations

- **New iXBRL Requirements for Europe:** European Securities and Markets Authority (ESMA) has announced that Inline XBRL (iXBRL) will be used as the standard for European Single Electronic Format (ESEF) for reporting periods commencing on or after January 1 2020.
- **Applicable for:** All public companies across Europe, listed on EU and EEA.
- **Why?:** Inline XBRL based ESEF will make reports machine-readable, facilitating access, analysis and comparability of financial statements.
- **Inline XBRL (iXBRL):** is an open standard that enables a single document to provide both human-readable and structured, machine-readable data. iXBRL is used by millions of companies around the world to prepare financial statements in a format that provides the structured data that regulators and analysts require, whilst allowing preparers to retain full control over the layout and presentation of their report.
