**Cloud Apps Built for Rapid Deployment and Accelerated Planning**

Pivot your plans confidently and make informed decisions quickly. CCH Tagetik Smart NOW apps are pre-built cloud solutions that provide you with the out-of-the-box functionality you need to create plans, model alternate scenarios, and reforecast your business—without IT intervention and at a low cost to you.

Created for fast implementations, you can start assessing the business impact of market changes and adjusting your plans immediately. By supporting your decisions with dynamic on-the-fly models and in-depth real-time analysis, our planning apps give you the insights to support your business and select the best plan forward.

<tbody>
<tr>
<td>Make confident decisions on-the-fly. Each app uses our powerful data engine and calculation logic to produce, compare and adapt plans quickly. Use our apps to analyze scenarios, reforecast the business, assess the financial impact of operational decisions, and understand the domino effect of alternative courses of action.</td>
<td>Access, adapt, and adjust plans anywhere at any time. Our apps have all the perks of the cloud — unlimited scalability, universally accessible — plus security standards that go beyond the call of duty.</td>
<td>Getting started is as easy as 1-2-3. Built for easy, instant implementation, our apps are immediately ready for you to use. Built with a finance-friendly front-end, the solution is intuitive to use and doesn’t require IT support.</td>
</tr>
</tbody>

<tbody>
<tr>
<td>Test any scenario before you take action. By leveraging our powerful data engine, the Analytic Information Hub, our apps enable you to instantly plan, model, and forecast using detail-level drivers. Our apps have built-in financial intelligence, a data repository, and calculation logic all controlled with workflow and audit trail.</td>
<td>Spend less time creating reports and more time on your action plan. As with all our pre-built solutions, each app comes with a suite of reporting templates that are specific to your planning needs. With the click of a button, our templates automatically refresh with your latest numbers.</td>
<td>There’s no need to build your processes from scratch. We determined each app’s pre-built logic based on standard functions our customers have consistently applied to their deployments over 10+ years.</td>
</tr>

“Rapid deployment of planning functionality is a key priority for our customers. Based on our proven experience, we’ve created a set of innovative planning solutions that will provide the agility needed to stay competitive in today’s changing marketplace.”

Anthony Marzetti
VP Product Management
CCH Tagetik

Addressing Common Planning Challenges

- **Quick Deployment**: Our cloud-based, pre-built solutions eliminate lengthy implementation times and reduce dependency on IT.

- **Fast and Accurate Planning**: Our powerful data engine, the Analytic Information Hub, provides detailed results quickly and accurately by transforming granular financial and operational data.

- **Adapt to Changing Requirements**: When the market changes, you can update assumptions, adjust key drivers, run simulations and what-if scenarios to determine the best alternate path.

- **Gain Insights and Make Better Decisions**: Using dynamic reporting and analysis tools to drill-down into detail-level data, get the full visibility to key information to make more informed decisions.

- **Save Costs, Save Time and Reduce Risk**: Our apps automate time-and-resource consuming processes while improving control to give you fast time-to-value and a lower overall TCO.

Smart NOW Planning Apps

Choose one — or all — of our pre-built planning solutions:

- **Capital Expenses Planning**: Make smart capital purchases. Quickly plan for new assets, calculate depreciation, and see the financial impact of purchases down the line. Evaluate long-term needs to ensure your capital expenses align with future growth objectives.

- **Cash Flow Planning**: Reduce financial risk and improve liquidity. Rapidly create forecasts and run what-if simulations to determine short-term cash requirements. Optimize your cash position by creating alternate cash flow plans and producing precise projections.

- **Driver Based Planning**: Create plans for your unique business drivers. Simulate sales, cost, or project plans based on industry-specific drivers to determine the scenario with most desirable financial outcome.

- **Risk Adjusted Planning**: Know your risks and plan to mitigate them. Manage risks by identifying, measuring, and quantifying risk events using Monte Carlo simulations and analyzing every possible scenario.

- **Workforce Planning**: Optimize your human capital and manage workforce needs. Quickly plan compensation, determine employee costs, and track employee movements throughout the organization.

Why CCH Tagetik?

- **Finance-owned**: Purpose-built to be maintained by Finance, reducing TCO and dependency on IT.

- **Unified CPM Solution**: Consolidation, Planning, Reporting and Disclosure in one solution.

- **Reliability**: Our implementation team consistently delivers.

- **Cloud without Compromise**: On premises. On cloud. One solution. The choice is yours.

About Wolters Kluwer | CCH Tagetik

Wolters Kluwer enables finance, legal, tax, and healthcare professionals to be more effective and efficient. We provide information, software, and services that deliver vital insights, intelligent tools, and the guidance of subject-matter experts. We understand the complex challenges that face the Office of the CFO and translate that knowledge into intuitive, enterprise-scale CCH® Tagetik performance management software solutions that drive business results. With over 180 years’ experience in the markets we serve, Wolters Kluwer is lifting the standard in software, knowledge, tools and education.
